

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A method of generating data suitable for transmission to at least one of a predetermined combination of at least a first and a second data-receiving device, the method comprising:

providing data, at least one rule, and identifiers, wherein the identifiers are associated with portions of the data and are arranged to identity those portions of the data, wherein the identifiers provide an indication of the importance of a portion of data relative to other portions of the same data, and the at least one rule specifies for the predetermined combination of first and second data-receiving devices to which device a portion of the data having a predetermined identifier should be sent; and

the method further comprising:

classifying the at least first and second data-receiving devices into a set of predetermined classifications that identify the data output capability of the at least first and second data-receiving devices;

connecting to the first and second data-receiving devices, wherein the connection is treated as a single session;

giving the first and second data-receiving devices a single session ID;

receiving a request for the data from at least one of the data-receiving devices;

obtaining the predetermined classification that identifies the data output capability of the at least one data-receiving device requesting the data; and

selecting portions of the data for transmission to at least one of the data-receiving devices depending upon the at least one rule and the predetermined classification that identifies the data output capability of the at least one data-receiving devices requesting the data.
